*Calendar Year 2013*

# HEALING THE SICK & PROCLAIMING THE KINGDOM OF GOD

## Missional Overview:

CURE International (CURE) began as the vision of **Dr. Scott and Sally Harrison**, who realized the overwhelming need for medical and spiritual care in underserved countries around the world.

Led by President and CEO **Dale Brantner**, CURE continues to carry out its mission as the largest provider of surgical care in the developing world.

In an effort to bear more fruit for the kingdom of God, CURE's **network of hospitals and specialty programs continues to grow deeper in each country served**—all the while maintaining the organization's core values and the commitment to never turn away a patient on the basis of gender, ethnic background, religious affiliation, or ability to pay.

## THE CHARACTER OF CURE

The character of CURE and the outpouring of the organization's work is comprised of and rooted in the following five core values:

**BEING CHRISTLIKE** - We value reflecting Jesus with compassion to those we serve.

**BEING CHILDLIKE** - We value a child's passion for life and dependence on God in how we think, live, and love.

**INTEGRITY** - We value doing what we say and saying what we do.

**RESTORING THE BROKEN** - We value taking action in responding to the physical and spiritual needs of those without voice and resources.

**INTENTIONAL RELATIONSHIPS** - We value collaborative partnerships that cultivate trust and authenticity.

# GLOBAL IMPACT

Responding to Jesus' example of healing the sick and His call to spread the gospel, CURE champions the cause of children in the developing world whose physical disabilities can be corrected or alleviated through medical and surgical intervention. Our teaching hospitals and pediatric specialty programs currently operate in 30 countries, providing our staff with unique windows of opportunity to lovingly minister to the patients, families, and communities that we serve.

Since opening its first hospital in 1998, CURE has conducted **more than 2.4 million patient visits**, performed **more than 167,000 surgeries**, witnessed **more than 134,000 expressions of faith**, and trained **more than 7,200 medical professionals**.

The following represents statistics from CURE's global network over the course of the past calendar year.

# CURE KIDS

**MEET YONAS AZANE**

Yonas is a sweet young man in the fourth grade that comes from a family of farmers and has four sisters. When he was born, all seemed well. Sadly, when Yonas turned ten years old, his foot started to curl under. He had developed clubfoot, and his family did not know where to turn. Thankfully, one of our previous patients referred the family to CURE Ethiopia where Yonas had surgery to straighten his clubfoot. At last, he will be able to walk confidently and can chase his dream to become a doctor.

**MEET EDSON MWELWA**

Edson is a handsome and cheerful nine-year-old boy from Zambia. He loves to spend his days playing with his younger brother at their home, about two hours from CURE Zambia. But Edson had a condition that forced his foot to stay in a tiptoe position. Over the years, this made it hard for Edson to keep up. His parents visited one of CURE's partners and were referred to the hospital. Once there, Edson had surgery to release the tightened tendon along the back of his foot. Now, he can return home, walk proudly, and give his younger brother a true run for his money.

**MEET VANESSA AKINYI**

For many years, Vanessa seemed to enjoy a happy and healthy childhood. In fact, both she and her family were completely unaware that Vanessa had a foot deformity. Then, one day, Vanessa had an accident on the school playground. As her mother cleaned her wounds at home, she saw that Vanessa's foot was turned inward. She soon realized that Vanessa needed medical treatment and brought her to CURE Kenya where doctors straightened her foot once and for all. Though the cause remains unclear, all that matters now is the reality that Vanessa can walk confidently to and fro.

**MEET SAMSON KAYENDA**

Samson is an active ten-year-old boy who comes from a big family. For many years, he lived a happy childhood. That is, until one day, when he hurt his leg. He visited another medical facility, where doctors treated the wound externally and knew that a bone infection could develop. Over time, Samson did develop a bone infection, making it painful for him to walk long distances and hard for him to make the trek to school and back. At CURE Malawi, Samson had surgery to remove the infected portion of bone and to stabilize his leg. Now, he will be able to once again enjoy a normal childhood and can pursue his dream to become a commercial driver.

The above stories are examples of lives that have been changed due to the care received at CURE. Each year, we hear thousands of stories like those of Yonas, Edson, Vanessa, and Samson.
