

Tebow CURE Hospital celebrates 1,000 admissions

May 30, 2017 · By CURE International · [News](#)

Week by week, we wear our happy faces as we welcome kids from all over the Philippines who get admitted at the Tebow CURE Hospital. Monday is admissions day, and we take time to get to know children and their families as they hope to get healed from physical disabilities.

Two and a half years after opening our doors at the Tebow CURE Hospital, the record officially shows over 1,000 patients admitted!

1,000 kids like [Janua](#), who now walks free of clubfoot!

For two and a half years, we have reached kids from different ethnic backgrounds who share one common dream: to become disability free! This milestone of 1,000 admissions would not have been possible without our ministry partners, including the [Sacred Harvest Foundation](#) and the [Tim Tebow Foundation](#), who both share our passion of physical and spiritual healing for children in the Philippines. Can you imagine what the following years will look like? Neither can we! We know that we are just getting started, and we will continue to share God's love to the CUREkids that walk through our doors daily!
