Established in 2006, CURE Zambia performs over 3,000 life-changing reconstructive, orthopedic, ENT, and audiological surgeries each year for children suffering from treatable disabilities. Strategically located in Lusaka, the teaching hospital has six buildings, 54 beds, and three operating theaters. In addition to world-class clinical service, CURE Zambia ministers to the emotional and spiritual needs of patients and their communities. The Beit Trust, a UK-based charity, provided the funding for this facility as a centennial gift to the people of Zambia. CURE Zambia is a strategic partner with the Ministry of Health.
