Established in April 2021, CURE Zimbabwe is the first and only hospital in the country of 14 million people to provide sponsored orthopedic care for disabilities such as clubfoot, bowed legs, cleft lip/palate, and severe burns to children regardless of their economic status. The teaching hospital has 42 beds, three operating theaters, an outpatient clinic and performs over 950 life-changing reconstructive and orthopedic surgeries each year for children suffering from treatable disabilities. The hospital was refurbished by the Zimbabwe Orthopedic Trust in partnership with the Zimbabwean government and is located adjacent to United Bulawayo Hospital.
